

**Message for parents/students/coaches:**

Beginning Monday, June 14, 2021, and until further notice, there will be *very limited* parking access to SMSA. There will be **no** access to current campus parking lots (north, middle or south lots).

- Student parking will be restricted to temporary spaces accessible via the gravel driveway adjacent to Hunter Gymnasium. Please watch for signage that will denote student parking.
- Parents/guardians dropping off/picking up students may use the Hermitage Road which provides turn around access at the end of the drive. We ask that vehicles remain on the blacktop and refrain from driving on the grass areas.

To ensure we allow continuous access for service and construction vehicles, parking is prohibited on County Road K. Additionally, as good neighbors, we respectfully request that you not use the Congregation of Sisters of St. Agnes driveway for parking or turn around purposes. Thank you for your patience and support. Drive safely and watch for construction vehicles and equipment.
