

NEWS FROM THE KITCHEN

SMSA is participating in the USDA Seamless Summer Option (SSO) for the entirety of the 2021-22 school year. This means that our school is providing **free** lunches to all students! Additional information is available in our back to school cover letter in the family packet.

As school foodservice programs are making preparations to return to normal service and menus, schools are facing unprecedented issues with the supply chain that will cause us to alter our posted menus with little to no notice. We are working closely with our distributors and manufactures to secure both the food and supply items needed to support our programs.

While it our intention to serve the posted menu each day at school, supply issues will not make this possible throughout the school year until supply chain issues are rectified. We will always attempt to substitute the scheduled menu item with another that is as similar as possible to the extent we are able to do so.

To help families keep abreast of changes SMSA is excited to offer **MealViewer!** This online menu service provides a quick and easy way to view our school's daily menus.

MealViewer provides:

- **Convenience - Available 24/7 on the web** or through our **mobile app** for your smartphone.
- **Safety** – Create profiles for your students and select their allergens. Get alerts each time that allergen is on the menu!
- **Fun Feedback** – Let students favorite and rate certain meals so that we ensure we are serving meals they enjoy!

Signing Up is easy!

1. Go to schools.mealviewer.com or download the mobile app and register for a free account.
2. Create a profile for you and your students by first selecting their school.
3. Set up your student's profile by selecting the appropriate allergens and let them favorite their most loved meals. Now you will receive notifications every time any of these are served!

The school menus link is available on our website. [Click here](#) to see our new look!
