

Space Day at EAA Aviation Museum™

Saturday, October 24 • 10 a.m. - 5 p.m.

SPACE DISCOVERY FOR KIDS — 10 a.m.-4 p.m.

Straw Rockets: Design and launch a straw rocket powered by you.

Mission Patch Contest: Design a mission patch for this year's Space Day theme: Rockets. The winning design will be turned into a sticker and given out at next year's Space Day!

Lunar Landing: Engineer a lunar lander that can touch down safely with its marshmallow cargo intact.

Space Capsules: Climb inside a full-scale replica of the Mercury and Gemini space capsules.

And so much more!

SPACE DAY SPEAKER

4-5:30 p.m.

We are excited to be joined by Capt. Fred Haise, retired fighter pilot, aeronautical engineer, and NASA research pilot and astronaut as our featured guest speaker for Space Day this year.*

**Haise will be joining us virtually and will be available for questions from the audience.*

All Space Day activities are included with regular admission unless noted (adults, \$15.00; seniors age 62+, \$13.00; veterans, active military personnel, and spouses, \$13.00; students ages 6-18, \$13.00; children ages 5 and under, free; EAA members, free).
